Participation categories

DfE require Local Authorities to count and report destinations data in a format to reflect the Raising of the Participation Age (RPA) statutory guidance which now includes young people up to age 18. This report categorises destinations to include those outcomes that 'Meet the Duty to Participate'.

Participation is defined as those young people who are in:

- Full time study in a school, college or with a training provider
- Full time work or volunteering (20 hours or more) combined with part time education or training
- An apprenticeship or traineeship

Participation also includes those age 16 or 17 serving a custodial sentence.

Not Participating includes employment without study, NEET (not in education, employment or training) and those whose current destination is unknown because they cannot be contacted or have refused to disclose what they are doing.

Working Towards includes those who are in re-engagement provision, or have a start date agreed for Participation.

From a total 2018 cohort of **173, 9** students (**5.2%**) were not participating by November 1st. Connexions continue to work with young people and with those from previous years who are NEET, offering support to help them move forward positively.
