## Learning and Sports Village

Principal: Mrs Jane Brown

Outstanding Progress for All

June 2019

Dear Parent/Carer

Your child has received one dose of the Human Papillomavirus vaccination (HPV). This vaccination offers protection against high risk HPV types 16 and 18, which can cause cervical cancer.

Your child will receive the second dose of the above vaccination on **Wednesday 19<sup>th</sup> June 2019** at New College Leicester.

The vaccination will be administered by nurses from The Community Immunisation Service from Leicestershire Partnership NHS Trust. On the day of the vaccination your child should wear a white vest top or white t-shirt under their college shirt to make the vaccination process easier.

If you have already given permission for your child to receive the Human Papillomavirus vaccination (HPV) there is no need for you to complete any paperwork. The Community Immunisation Service already have the consent forms that you completed and have submitted. If you haven't completed the relevant paperwork and you wish for your child to receive the vaccinations please don't hesitate to contact me by emailing me at [erudge1@newcollege.leicester.sch.uk](mailto:erudge1@newcollege.leicester.sch.uk)

Yours sincerely

Mrs E Rudge-Tezcan  
Assistant Principal  
New College Leicester
